CANADIAN JOURNAL OF REMOTE SENSING

Index to Volume 12
1986

Number 1 — July ..... pp. 1- 76
Number 2 — December ..... pp. 77-168

A

Accuracy of Automatic Parallax Measurements of Simulated SPOT Images, Numerical: Dan Rosenholm 103

Agroclimatic Region, Crop Parameters, and SAR Image Tone in Western Canada, On the Relationship Between: Joseph Cihlar 81

Airborne Lidar System, Gross-Merchantable Timber Estimation Using an: Gordon A. Maclean, W.B. Krabill 7

Analyse en Composantes Principales de Données Multidates LANDSAT, Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l': André Beaudoin, Richard Brochu, Denis Morin 29

Annual General Meeting 68

Asrar, G., E.T. Kanemasu, D.G. Major, G.B. Schaalje: Estimation of Whole-Plant Biomass and Grain Yield From Spectral Reflectance of Cereals 47

Assessment of the Topographic Effects of SAR Image Tone, an: G.M. Foody 124

Automated Digital Image Correlation, An Evaluation of Errors in: Steven, R. Paine 94

Automated Matching of Real and Simulated SAR Imagery as a Tool for Control Point Acquisition: B. Guindon, H. Maruyama 149

Automatic Parallax Measurements of Simulated SPOT Images, Numerical Accuracy of: Dan Rosenholm 103

B

Band-Ratio Triplets Using Statistical Data of Original Single-Band Imagery, Selection of Optimum: H. George, M.B. Dusseault . 114

Beaudoin, André, Richard Brochu, Denis Morin: Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates LANDSAT 29

Brochu, Richard, Denis Morin, André Beaudoin: Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates LANDSAT 29

C

Campbell, Craig D., Roy A. Mead, James L. Smith: Imaging and Identifying Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography .. 19

Canadian Remote Sensing Society News .. 65
..... 163

Cereals, Estimation of Whole-Plant Biomass and Grain Yield from Spectral Reflectance of: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47

Changements d'Utilisation de Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates LANDSAT, Détection des: André Beaudoin, Richard Brochu, Denis Morin 29

Cihlar, Josef: On the Relationship Between Agroclimatic Region, Crop Parameters, and SAR Image Tone in Western Canada 81

Crop Parameters, and SAR Image Tone in Western Canada, On the Relationship Between Agroclimatic Region,: Josef Cihlar 81

Curran, Paul J., Giles M. Foody: Land-Cover Mapping from Synthetic Aperture Radar: The Importance of Radiometric Correction 37

D

Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates LANDSAT: André Beaudoin, Richard Brochu, Denis Morin 29

Digital Image Correlation, An Evaluation of Errors in Automated: Steven R. Paine . 94

Dusseault, M.B., H. George: Selection of Optimum Band-Ratio Triplets Using Statistical Data of Original Single-Band Imagery 114

E

Editorial 5

Errors in Automated Digital Image Correlation, An Evaluation of: Steven R. Paine 94

Estimation of Whole-Plant Biomass Grain Yield from Spectral Reflectance of Cereals: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47

Evaluation of Errors in Automated Digital Image Correlation, An: Steven R. Paine 94

F

Foody, Giles M., Paul J. Curran: Land-Cover Mapping from Synthetic Aperture Radar: The Importance of Radiometric Correction 37

Foody, G.M.: An Assessment of the Topographic Effects of SAR Image Tone 124

G

George, H., M.B. Dusseault: Selection of Optimum Band-Ratio Triplets Using Statistical Data of Original Single-Band Imagery 141

Global Program — The Royal Society Of Canada 159

Grain Yield from Spectral Reflectance of Cereals, Estimation of Whole-Plant Biomass and: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47

Gregory, A.F., H.D. Moore: Thematic Mapping from LANDSAT and Collateral Data: A Review of One Company's Experience and a Forecast of Future Potential 55

Gross-Merchantable Timber Estimation Using An Airborne Lidar System: Gordon A. Maclean, W.B. Krabill 7

Ground Control Point Acquisition, Automated Matching of Real and Simulated SAR Imagery as a Tool for: B. Guindon, H. Maruyama 149

Guindon, B., H. Maruyama: Automated Matching of Real and Simulated SAR Imagery as a Tool for Ground Control Point Acquisition 149

I

Identifying Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography, Imaging and: Craig D. Campbell, Roy A. Mead, James L. Smith 19

Imaging and Identifying Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography: James L. Smith, Craig D. Campbell, Roy A. Mead 19

K

Kanemasu, E.T., D.G. Major, G.B. Schaalje, G. Asrar: Estimation of Whole-Plant Biomass and Grain Yield from Spectral Reflectance of Cereals 47

Kobrick, M., F. Leberl, J. Raggam: Radar Stereo Mapping with Crossing Flight Lines 132

Krabill, W.B., Gordon A. Maclean: Gross-Merchantable Timber Estimation Using an Airborne Lidar System 7

L

Land-Cover Mapping from Synthetic Aperture Radar: The Importance of Radiometric Correction: Giles M. Foody, Paul J. Curran 37

LANDSAT and Collateral Data: A review of One Company's Experience and a Forecast of Future Potential, Thematic Mapping, from: A.F. Gregory, H.D. Moore 55

LANDSAT, Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates: André Beaudoin, Richard Brochu, Denis Morin 29

Leberl, F., J. Raggam, M. Kobrick: Radar Stereo Mapping with Crossing Flight Lines 132

Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography, Imaging and Identifying: James L. Smith, Craig D. Campbell, Roy A. Mead 19

M

Maclean, Gordon, A., W.B. Krabill: Gross-Merchantable Timber Estimation Using an Airborne Lidar System 7

Major, D.G., G.B. Schaalje, G. Asrar, E.T. Kanemasu: Estimation of Whole-Plant Biomass and Grain from Spectral Reflectance of Cereals 47

Mapping from Synthetic Aperture Radar: The Importance of Radiometric Correction, Land-Cover,: Giles M. Foody, Paul J. Curran 37

Mapping with Crossing Flight Lines, Radar Stereo: M. Kobrick, F. Leberl, J. Raggam 132

Maruyama, H., B. Guindon: Automated Matching of Real and Simulated SAR Imagery as a Tool for Ground Control Point Acquisition 149

Matching of Real and Simulated SAR Imagery as a Tool for Ground Control Point Acquisition, Automated: B. Guindon, H. Maruyama 149

Mead, Roy A., James L. Smith, Craig D. Campbell: Imaging and Identifying Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography 19

Moore, H.D., A.F. Gregory: Thematic Mapping from LANDSAT and Collateral Data: A Review of One Company's Experience and a Forecast of Future Potential 55

Morin, Denis, André Beaudoin, Richard Brochu: Détection des Changements d'Utilisation du Sol Dus à l'Urbanisation, à l'Aide de l'Analyse en Composantes Principales de Données Multidates LANDSAT 29

N

Numerical Accuracy of Automated Parallax Measurements of Simulated SPOT Images: Dan Rosenholm 103

O

On the Relationship Between Agroclimatic Region, Crop Parameters, and SAR Image Tone in Western Canada: Josef Cihlar . 81

P

Paine, Steven. R.: An Evaluation of Errors in Automated Digital Image Correlation .. 94

Parallax Measurements of Simulated SPOT Images, Numerical Accuracy of Automatic: Dan Rosenholm 103

Pine Seedlings After the First Growing Season on 35mm Aerial Photography, Imaging and Identifying Loblolly: James L. Smith, Craig D. Campbell 19

R

Radar Stereo Mapping with Crossing Flight Lines: G.M. Foody, F. Leberl, J. Raggam 132

Radiometric Correction, Land-Cover Mapping from Synthetic Aperture Radar: The Importance of: Giles M. Foody, Paul J. Curran 37

Raggam, J., M. Kobrick, F. Leberl: Radar Stereo Mapping with Crossing Flight Lines 132

Real and Simulated SAR Imagery as a Tool for Ground Control Point Acquisition, Automated Matching of: B. Guindon, H. Maruyama 149

Reflectance of Cereals, Estimation of Whole-Plant Biomass and Grain Yield from Spectral: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47

Relationship Between Agroclimatic Region, Crop Parameters, and SAR Image Tone in Western Canada, On the: Josef Cihlar . 81

Rosenholm, Dan: Numerical Accuracy of Automatic Parallax Measurements of Simulated SPOT Images 103

Royal Society of Canada, Global Program — The 159

S

SAR Imagery as a Tool for Ground Control Point Acquisition, Automated Matching of Real and Simulated: B. Guindon, H. Maruyama 149

SAR Image Tone in Western Canada, On the Relationship Between Agroclimatic Region, Crop Parameters, and: Josef Cihlar ... 81

SAR Image Tone, An Assessment of the Topographic Effects of: G.M. Foody .. 124

Schaalje, G.B., G. Asrar, E.T. Kanemasu, D.G. Major: Estimation of Whole-Plant Biomass and Grain Yield from Spectral Reflectance of Cereals 47

Selection of Optimum Band-Ratio Triplets Using Statistical Data of Orignal Single-Band Imagery: H. George, M.B. Dusseault 114

Simulated SAR Imagery as a Tool for Ground Control Acquisition, Automated Matching of Real and: B. Guindon, H. Maruyama 149

Simulated SPOT Images, Numerical Accuracy of Automated Parallax Measurements of: Dan Rosenholm 103

Smith, James L., Craig D. Campbell, Roy A. Mead: Imaging and Identifying Loblolly Pine Seedlings After the First Growing Season on 35mm Aerial Photography .. 19

Spectral Reflectance of Cereals, Estimation of Whole-Plant Biomass and Grain Yield from: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47

Statistical Data of Original Single-Band Imagery, Selection of Optimum Band-Ratio Triplets Using: H. George, M.B. Dusseault 114

Synthetic Aperture Radar: The Importance of Radiometric Correction, Land-Cover Mapping from: Giles M. Foody, Paul J. Curran 37

T

Thematic Mapping from LANDSAT and Collateral Data: A Review of One Company's Experience and a Forecast of Future Potential: A.F. Gregory, H.D. Moore 55

Timber Estimation Using an Airborne Lidar System, Gross-Merchantable: Gordon A. Maclean, W.B. Krabill 7

Topographic Effects of SAR Image Tone, An Assessment of the: G.M. Foody 124

W

Whole-Plant Biomass and Grain Yield from Spectral Reflectance of Cereals, Estimation of: D.G. Major, G.B. Schaalje, G. Asrar, E.T. Kanemasu 47
